Engineer Software

Agile & Scrum

2 achievements

Connect the parts of your system

The work collected under “Agile & Scrum” shows one part of a working system. We can help connect that part to the rest of your operation. Somebody accountable for scope, dates and the awkward conversations, so a project has one owner instead of five opinions.

Find a comparable challenge

Follow an example that resembles your situation. Its review describes the decisions behind the result, beyond the technology label. Managed 30 successful GIS projects to delivery — 30 GIS projects delivered, start to finish

Managed 30 successful GIS projects to delivery

Managed the execution of 30 successful GIS projects, demonstrating leadership in delivering innovative solutions across the field.

Ran development as 51 written initiatives

Ran the site's development as 51 written initiatives across 54 plan documents, each carrying its open boxes, its measurements and the decisions it declined — including six of eight agent-readiness findings refused with the reason recorded.

Focus the engineering effort

Bring the decision, the people affected and the options already considered. We can make the tradeoffs explicit and leave a documented recommendation.
